

cornwall park bird survey

Instructions and tally

Here are the steps you need to take to gather data effectively:

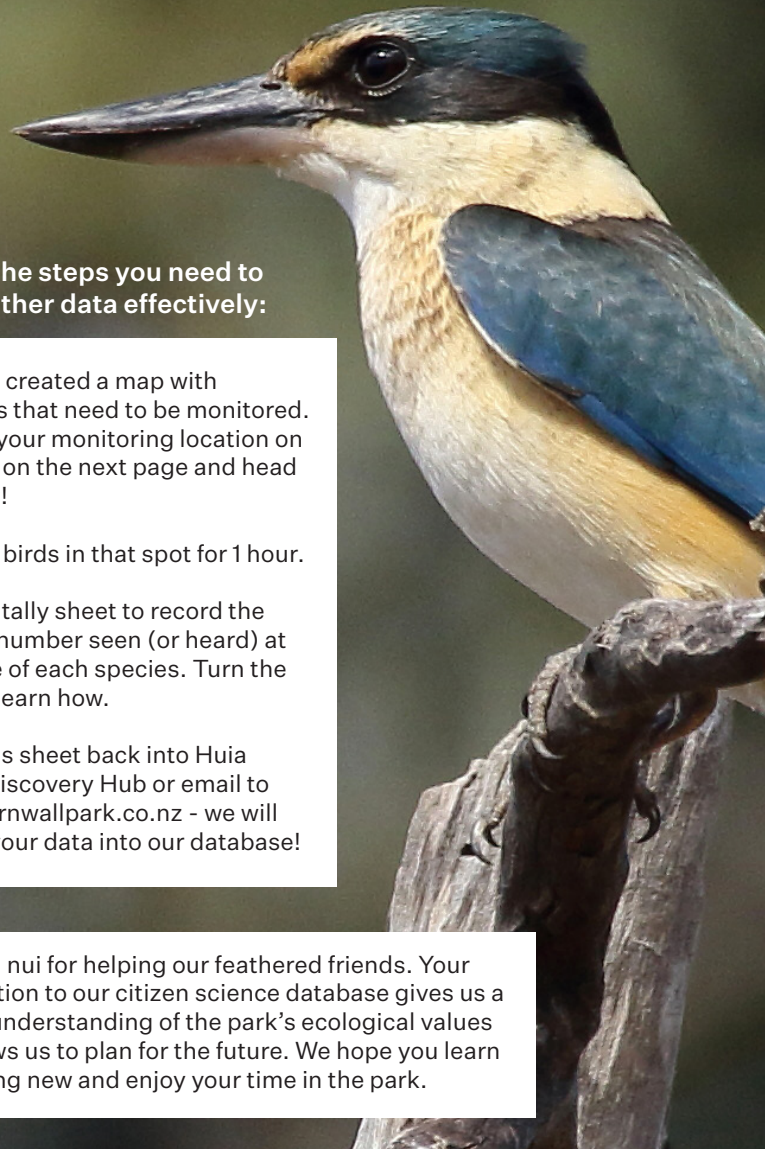

We have created a map with locations that need to be monitored. Choose your monitoring location on the map on the next page and head that way!

Look for birds in that spot for 1 hour.

Use this tally sheet to record the highest number seen (or heard) at one time of each species. Turn the page to learn how.

Hand this sheet back into Huia Lodge Discovery Hub or email to info@cornwallpark.co.nz - we will upload your data into our database!

Ngā mihi nui for helping our feathered friends. Your contribution to our citizen science database gives us a greater understanding of the park's ecological values and allows us to plan for the future. We hope you learn something new and enjoy your time in the park.

How to tally your sightings

If you see 2 tūi at the same time, cross 2 boxes.

<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	3	4	5
-------------------------------------	-------------------------------------	---	---	---

If you then see 4 tūi together, cross up to box 4, not 6.

<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	5
-------------------------------------	-------------------------------------	-------------------------------------	-------------------------------------	---

If you later see 3 tūi, stay at 4. Do not add up to 7.

<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	5
-------------------------------------	-------------------------------------	-------------------------------------	-------------------------------------	---

If the count exceeds boxes, then enter the final number into the space provided.
