Walk between our kauri and eucalypt grove, can you spot the difference between them? Kauri are native to Aotearoa and eucalyptus are native to Australia.

Our farmers move the farm animals around these paddocks to make sure they have enough grass to eat. Can you spot our farm animals today?

Say "kia ora" to our busy friends. How many bees can you see? They carry pollen on their knees which our flowers think is the "bees knees"!

This garden is planted with plants that butterflies love! Can you spot any today? Summer is peak butterfly spotting season.

Explore the many different trees in our Native Arboretum, cartwheel across the lawn or play among the moreton bay fig buttress roots.

Excite your senses by visiting the Acacia Cottage sensory garden and learn about many interesting plants. Or pop inside to step back in time to 1841, when it was built.

Visit Huia Lodge to learn about the park and explore our interactive displays and activities. Top Tip: pick up a kids activity book for more activities to do on your journey through the park.

From 17 July to 10 September we are lambing and calving. The eastern areas of the park are a NO dog area during this time. See our website for more details.
 Dogs must be on lead at all times while in the park.

Suitable for prams/wheelchairs
 Stiles, steps and unpaved paths
 Be mindful of shared cycle and walking areas

Key

Taking a slight detour off the grass areas and sticking to the paths makes this a pram/wheelchair friendly version.

Easy

45min, 2.6km

Pram Friendly

Explore and Discover

Designed for little feet with big curiosities that love to find special taonga (treasure) in the park! Discover giant trees, farm animals, busy bees and butterflies, big open lawns and very old buildings along the way!

Easy

45min, 2.6km

Explore and Discover
