

## Public gatherings in Cornwall Park in Orange Level Picnics and Barbeques

Thank you for choosing Cornwall Park for your gathering. As you are aware New Zealand is in the COVID-19 Protection traffic light system put in place by the New Zealand Government. At Cornwall Park we aim to provide a safe and enjoyable space for all New Zealanders during this time, and ask that you help us do this during your visit.

As the organiser of your gathering, you are responsible for everyone in your group and ensuring your event follows the Government guidelines. This pack will help you decide if your gathering can happen in the park and provide you with the tools to hold it safely.

In this pack you will find our Cornwall Park QR code, the COVID-19 Protection Framework, New Zealand Government guidelines and an outline of the park guidelines at the **Orange** traffic light level.

### **Cornwall Park guidelines for Orange Level:**

We have a year-round maximum of 50 people for gatherings. This means in Orange Level, the maximum for vaccinated and unvaccinated groups is the same.

#### **Information for all groups:**

- Share our QR code amongst your group so everyone can sign in.
- Our BBQ's are open for use and work on a first come, first served system, they cannot be booked. Allocate 1-2 cooks to use the BBQ to reduce crowding and social distance with other groups when using.
- No area of the park is booked exclusively for any group. You will need to share the space, but luckily Cornwall Park is big so there is room for all!
- Be kind to each other.

For more information on Government guidelines for Red Level please visit:

# COVID-19 Protection Framework (traffic lights)

The new framework provides a guide to protecting one another, keeping our health system running well and businesses open.

## Factors for considering a shift between levels

- vaccination coverage;
- capacity of the health and disability system;
- testing, contact tracing and case management capacity; and
- the transmission of COVID-19 within the community, including its impact on key populations.

Decisions will also include other factors, including economic and social impacts and operational considerations.

**Localised protections and lockdowns:** can be used as part of the public health response, in addition to other measures, where necessary to protect affected communities.

**My Vaccine Pass:** the official record of your COVID-19 vaccination status for use in Aotearoa New Zealand.

You will be legally required to provide your Vaccine Pass to enter places that have vaccination requirements in place in order to operate under the current traffic light setting. This may include hospitality venues, events, gatherings, and gyms.

You cannot be asked to provide your Vaccine Pass to access basic needs services, including supermarkets, dairies, petrol stations, public transport, pharmacies and essential health care. This also applies to specific education and housing services.
